Technical Skills

Java, Kotlin, HTML, CSS, JavaScript, Bootstrap, NodeJS, ReadctJS, Android, SQL, ExpressJS, C++(Basic)

Tools

Git, Github, IntelliJ Idea, VsCode, AndroidStudio

Other Skills

Leadership, Quick Learner, Problem Solving, Team-Player, Adaptable, Strong Communication, Attention to Detail, Object Oriented Programming, Data Structures

Core Subjects

CN, OS, DBMS, Linux

PROJECTS

Blog Analytics

NodeJS | ExpressJS

- A backend-only web server, featuring two API endpoints for data retrieval and analysis.
- Created statistics and search endpoints, handled errors, and configured ports.

Employee Timecard Analyser

Java | OOPs

- Designed and developed a Java application for analyzing employee timecard data in a CSV file.
- Utilized date parsing and data manipulation techniques.
- Ensured data accuracy and reliability through error handling.

Calculator Application

Android | Kotlin | XML

- Implemented essential arithmetic operations and created a cohesive and visually appealing UI.
- Maintained GitHub repository to track project changes.

My Portfolio

HTML | CSS | JavaScript

- A modern & fully responsive website that boasts a seamless navigation and eye-catching visuals.
